

Description

The Suite-Reach tool and cover is perfect for cleaning and applying disinfectants in isolators, biological safety cabinets, glove boxes and other hard to reach spaces. In combination with the custom cover made from the revolutionary Suite ultra-fiber material technology, this is the perfect device for both cleaning and applying disinfectants. The Suite-Reach tool is lightweight, extends from 21" - 37", swivels 360° and is fully autoclavable. Available in both sterile and non-sterile forms.

Product Information

Product: Suite-Reach Tool

Part #: Y-3003-1384

Packaging: 1 tool per case

Description: Stainless steel, double pointed head with anodized aluminum extension handle that is autoclavable.

Product: Suite-Reach Cover

Part #: Y-TTC-IBDI-20

Sterile Part #: Y-TTC-IBDI-20S

Packaging: 20 covers per case

Description: Synthetic high-density ultra-fiber tool cover.

Product Performance

Test	Method	Result
Sterility	AAMI TIR33:2005	Validated Sterile to a 10 ⁻⁶ Sterility Assurance Level
Particles	IEST-RP-CC03	Acceptable for ISO Class 5 use

Reduction and Transfer: Wiping with Suite material has been demonstrated to *effectively remove surface contamination. In addition, the carry-over (cross contamination potential) after wiping with the Suite material is minimized as contaminants are fully retained within the material.

*Lab testing available upon request
